

Gia Bao Nguyen Tran

Web Developer

Email: ngtrgiabao251002@gmail.com | Linkdin: [linkedin.com/in/gbao](https://www.linkedin.com/in/gbao) | Github: <https://github.com/ngtrgiabao>

[My Portfolio](#)

A Web Developer has 1.5 years of experience, seeking to work on creative projects and work with team members.

Skills

- Programming Languages: **JavaScript**, TypeScript, Node
- Libraries: **React**
- Frameworks: **SASS/SCSS**, **TailwindCSS**, Bootstrap, ExpressJS
- Databases: MongoDB, Firebase
- Version Control: Git, Gitlab, Github
- Others: OOP, CRUD, Agile

Projects

Yanji Social (Team size: 1 member)

Jul 2023 - Aug 2023 (3 month) - CAN THO UNIVERSITY

- **Position:** FullStack Developer
- **Description:** Yanji Social Project is a web app ReactJS where a user can sign up, make a post, comment, chat and like on friend's posts. It uses React for templating and using Cloudinary to storage Image, Videos, etc.
- **Technologies:**
 - Frontend: ReactJS, TailwindCSS, Redux
 - Backend: Socket.io, ExpressJS
 - Database: MongoDB
 - Cloud: Cloudinary
- **Responsibilities:**
 - Design UI/UX and implement additional functionalities (both backend and frontend) base on the requirements
 - Design database schema and implement backend services for the app
 - Employed Socket.io and ExpressJS to build the backend services, enabling real-time communication and data handling.
 - Utilized Cloudinary to efficiently store and manage images, videos, and other media assets.
 - Utilized ReactJS, TailwindCSS, and Redux to enhance the user interface and user experience.
 - Designed and implemented additional features and functionalities in line with project requirements.
